Originating in India, the Gypsies arrived in Europe around the 14th century, spreading not only across the entirety of the continent but also immigrating to the Americas. The first Gypsy migration included farmworkers, blacksmiths, and mercenary soldiers, as well as musicians, fortune-tellers, and entertainers. At first, they were generally welcome as an interesting diversion to the dull routine of that period. Soon, however, they attracted the antagonism of the governing powers, as they have continually done throughout the following centuries. The second edition of the Historical Dictionary of the Gypsies (Romanies) seeks to end such prejudice by clarifying the facts about this nomadic people. Through a list of acronyms, a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics, the history of the Gypsies and their culture is told.

Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. Renowned English folk singer, Shirley Collins, met the famous American musical historian and folklorist, Alan Lomax at a party hosted by Ewan MacColl. In this highly personal and heart-rending account, she describes her year-long stint as Lomax's assistant and lover, and their diligent work uncovering the traditional music of America's heartland. The result is a finely woven tapestry of one woman's journey, both emotional and musical, and her discovery of a world of beauty and dignity, as well as deprivation and prejudice, amongst the folk musicians across the water in America.

This book is a unique compilation of essays about the genocidal persecution fuelling the Nazi regime in World War II. Written by world-renowned experts in the field, it confronts a vitally important and exceedingly difficult topic with sensitivity, courage, and wisdom, furthering our understanding of the Holocaust/Shoah psychoanalytically, historically, and through the arts. Authors from four continents offer their perspectives, clinical experiences, findings, and personal narratives on such subjects as resilience, remembrance, giving testimony, aging, and mourning. There is an emphasis on the intergenerational transmission of trauma of both the

victims and the perpetrators, with chapters looking at the question of "evil", comparative studies, prevention, and the misuse of the Holocaust. Those chapters relating to therapy address the specific issues of the survivors, including the second and third generation, through psychoanalysis as well as other modalities, whilst the section on creativity and the arts looks at film, theater, poetry, opera, and writing. The aftermath of the Holocaust demanded that psychoanalysis re-examine the importance of psychic trauma; those who first studied this darkest chapter in human history successfully challenged the long-held assumption that psychical reality was essentially the only reality to be considered. As a result, contemporary thought about trauma, dissociation, self psychology, and relational psychology were greatly influenced by these pioneers, whose ideas have evolved since then. This long-awaited text is the definitive update and elaboration of their original contributions.

Edited by iconic musician Kim Gordon and esteemed writer Sinéad Gleeson, this powerful collection of award-winning female creators shares their writing about the female artists that matter most to them. This book is for and about the women who kicked in doors, as pioneers of their craft or making politics central to their sound: those who offer a new way of thinking about the vast spectrum of women

in music. *This Woman's Work: Essays on Music* is edited by iconic musician Kim Gordon and esteemed writer Sinéad Gleeson and features an array of talented contributors, including: Anne Enright, Fatima Bhutto, Jenn Pelly, Rachel Kushner, Juliana Huxtable, Leslie Jamison, Liz Pelly, Maggie Nelson, Margo Jefferson, Megan Jasper, Ottessa Moshfegh, Simone White, Yiyun Li, and Zakia Sewell. In this radical departure from the historic narrative of music and music writing being written by men, for men, *This Woman's Work* challenges the male dominance and sexism that have been hard-coded in the canons of music, literature, and film and has forced women to fight pigeon-holing or being side-lined by carving out their own space. Women have to speak up, to shout louder to tell their story—like the auteurs and ground-breakers featured in this collection, including: Anne Enright on Laurie Anderson; Megan Jasper on her ground-breaking work with Sub Pop; Margo Jefferson on Bud Powell and Ella Fitzgerald; and Fatima Bhutto on music and dictatorship. *This Woman's Work* also features writing on the experimentalists, women who blended music and activism, the genre-breakers, the vocal auteurs; stories of lost homelands and friends; of propaganda and dictatorships, the women of folk and country, the racialized tropes of jazz, the music of Trap and Carriacou; of mixtapes and violin lessons.
